FIBER REINFORCED EPOXY WALL SYSTEM

**PRIME GUARD 1200** is a nominal 1/16" 100% solids, Kevlar and fiberglass-reinforced coating system designed for concrete, block, gypsum wall board, and many other standard building materials. It is designed to handle thermal shock and impact and is the choice of specifiers around the world for protecting substrates in the most demanding environments!

## COMMON APPLICATIONS

Wall and ceiling areas where maximum durability is required and where constant water or wash down procedures are occurring. Specific applications include, but are not limited to: car washes, showers, locker rooms, animal holding and research, laboratories, chemical processing, food and beverage processing areas.
