SYSTEM

# PRIME ARMOR

FLAKE FINISHED URETHANE MORTAR FLOOR  
SYSTEM WITH POLYASPARTIC TOPCOAT

system  
**3413**

**PRIME ARMOR 3413** consists of a 3/16" troweled urethane followed by a decorative flake broadcast. The system is sealed with a clear, UV-resistant polyaspartic topcoat. 3413 is formulated for applications where a decorative flake broadcast system is desired but the slab is too rough to allow the installation of a standard flake system. 3413 is also great for areas which experience swings in temperatures or thermal cycling.

## COMMON APPLICATIONS

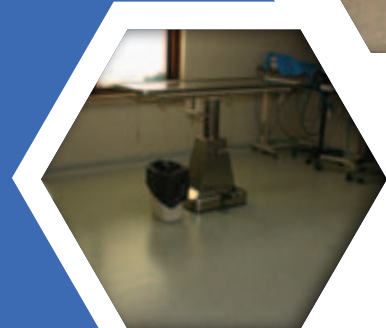

Floor areas where beauty, cleanability and thermal shock are all critical performance characteristics. Typically installed over clean prepared concrete. Specific applications include, but are not limited to: institutional and correctional kitchens, food and beverage manufacturing, cage wash areas, vivariums, clean rooms and retail showrooms.

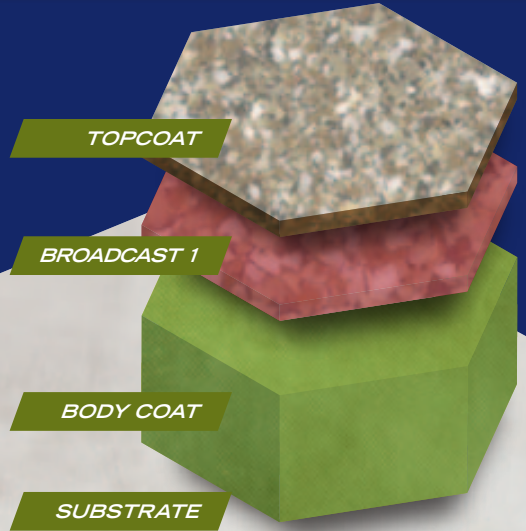

## COMPONENTS

352TR / 327 / 500

## LEED MATRIX [NC 2009]

	YES	NO

## OPTIONS

Cove Bases: Available

Colors: see back panel

	A	B	C
Texture	✓	✓	✓

Prime Coat offers 3 categories of finish Textures. Texture A is our smoothest finish. Texture B is our mid-level slip resistant finish and Texture C is our highest level slip resistant finish. Custom textures can be engineered to meet specific design requirements. A mock up is recommended as the best way to ensure customer satisfaction.

Antimicrobial: Available

Waterproofing Membrane: Available

Topcoats:

511/512

Waterborne urethane in Gloss, Satin and Matte, very good gloss retention, good chemical and abrasion resistance, LEED compliant
