4613

PRIME FLEX 4613 is a high solids urethane elastomeric parking system designed to protect concrete parking structures from damage caused from road salts, oil and moisture run off. Protecting the structural integrity of concrete is the most cost effective way of increasing the service life of the structure and reducing life-cycle costs.

COMMON APPLICATIONS

4613 is typically installed over clean prepared concrete where light vehicle traffic is expected and surface flexibility is required. Specific applications include, but are not limited to: Executive parking garages, Pedestrian Walk ways, Condo Parking garages and Balconies.
