SEAMLESS

PATENTED SEAMLESS COATING SYSTEM FOR RESEARCH

SEAMLESS SYSTEM 5630 is a patented process for creating 360 degrees of seamless protection by enclosing walls, ceilings, floors and joints. 5630 features our highest level of sanitary protections, with a decorative quartz broadcast for flooring and an impenetrable 50 – 60 mil fiberglass-reinforced wall and ceiling component . Wall to floor joints are fused with special reinforcing tape and a smooth and seamless transition is formed between the two surfaces. For the utmost in performance, the entire enclosure can be sealed with a UV-resistant polyaspartic coating.

COMMON APPLICATIONS

5630 is a patented process designed to go over almost any structural substrate including panel systems. It delivers a smoother finish than the 5631 and provides a completely seamless lining from floor to ceiling and eliminates joints, nooks and cavities. Specific applications include, but are not limited to: animal holding and research, laboratories, chemical processing, corridors, cage wash areas, vivariums, and clean rooms.

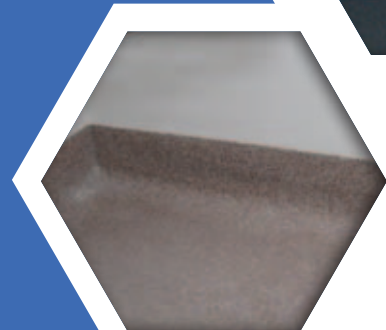

COMPONENTS

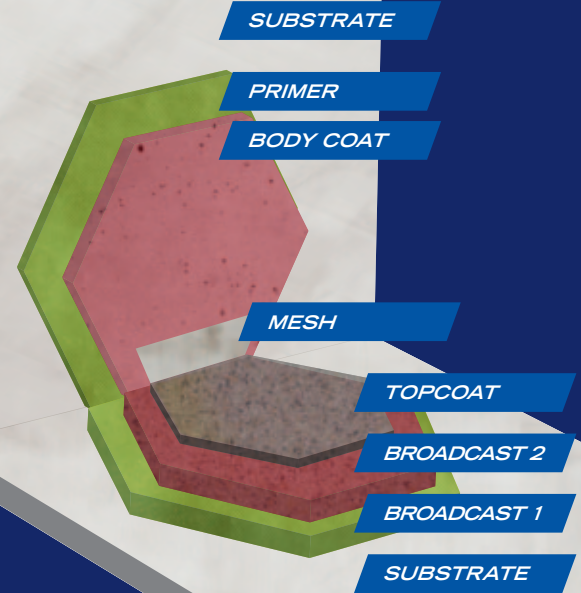

Floors: 320 / 321 / 401

Walls and Ceilings: 242 / 630 / 201

LEED MATRIX [NC 2009]

	YES	NO
MRc1.1 Building Reuse	✓	
MRc2 Construction Waste Management	✓	
MRc4.1 Recycled Content		✓
MRc6 Rapidly Renewable Materials	✓	
IEQc4.2 Low Emitting Materials	✓	

OPTIONS

Cove Bases: Included

Colors: see back panel

Texture	A	B	C
Walls/Ceiling	✓		
Floor	✓	✓	

Prime Coat offers 3 categories of finish Textures. Texture A is our smoothest finish. Texture B is our mid-level slip resistant finish and Texture C is our highest level slip resistant finish. Custom textures can be engineered to meet specific design requirements. A mock up is recommended as the best way to ensure customer satisfaction.

Antimicrobial: Available

Waterproofing Membrane: Available

Topcoats:

500

Polyaspartic urethane, greater UV resistance

511/512

Waterborne urethane in Gloss, Satin and Matte, very good gloss retention, good chemical and abrasion resistance, LEED compliant
